

Introducing our **NEW**

Under the Microscope

Delve into the world of microscopes with 4 sessions per day of up to an hour.

Under the Microscope is a journey into the world of magnification through the use of modern digital microscopes.

It is interactive and engaging and suitable for ages 3 and up.

Tables are arranged with at least 2 microscopes and magnifying glasses. Each table will have a variety of slides and objects to learn how to focus.

Digital scopes are used so that we can ensure that the correct focus is achieved and so that multiple people can see the object at the same time.

Parents, grandparents, caregivers etc. are welcome to join as this activity is a great family experience. You can spend a little time as you like, or up to the whole hour examining things.

Session Times:

9:00 am 11:00 am

1:00 pm 3:00 pm

Sessions are for up to 1 hour.

Parents / Guardians **must** remain close by in case of emergency if not participating.

Session Sizes:

40 people in total for each session. (Extras may be accommodated by "walk-ins" at RESTA's discretion at each session)

Session Bookings Essential.

RESTA will collect the booking sheet from Centre Management each morning and any remaining spots will be filled by RESTA during the day if required.

Please provide the following items

- 10 tables
- Minimum 20 chairs
- Fencing preferred or bollards for securing the area and providing one exit / entry point.

Contact us for pricing.

(depending on location *see NOTE below)

NOTE: A small additional fee for travel over 1000 kms may be added. Please contact us for your individualized quote.
